

# Nilfisk-Advance America CFM SL Vacs

## CFM SL Vacs

Our NEW three phase CFM SL Vacs feature solid construction and strong performance at an affordable price. Ideal for the collection of powders, liquids, dust and debris, the vacuums are easy to use and maintain - even in the most challenging of environments.

## Features and Benefits

- The SL Vacs are a cost-effective solution that features the same level of performance and reliability as our premium line of vacuums
- Lightweight and highly maneuverable, the SL Vacs feature rear swiveling wheels with locking brakes
- The motor sits at the bottom of the vacuum for maximum stability
- The polyester main filter can be quickly and easily cleaned by the external manual filter shaker that maintains the vacuum's maximum suction power and filtration capabilities
- A unique release lever lowers the wheeled collection container for fast and easy disposal of collected debris
- An optional HEPA filter ensures that 99.97% of particles are retained, down to and including 0.3 microns in size
- The SL Vacs are compatible with Nilfisk's comprehensive range of attachments and hoses to suit your particular application requirements. For example, a 40 liter swarf basket and wet shut-off valve are available for metalworking applications
- A convenient accessory holder houses the vacuum's accessories

## Specifications for the SL Vacs

Data	Units	3SL	5WSL
Voltage @ 60 Hz	volts	200-240/440-480	200-240/440-480
Type of Power	no. of phases	3	3
Power	KW	2.55	6.3
Current Draw	amps	12.0/6.0	25.5/12.5
Waterlift, max.	inches H <sub>2</sub> O	145	145
Airflow, max.	cfm	224	353
Main Filter Area	sq. ft.	21	21
Upstream HEPA* Filter Area	sq. ft.	53.8	53.8
Noise Level @ 3'3"	dB(A)	71	74
Protection	IP	55	55
Insulation	class	F	F
Tank Capacity	gallons	26	26
Machine Inlet	inches	3	3
Dimensions (lxwxh)	inches	41.5x26.4x60.2	41.5x26.4x60.2
Weight	lbs.	225	324
Cord Length	ft.	30	30

\* Optional HEPA filter is DOP-tested for 99.97% efficiency at 0.3 microns
